

## **Announcement**

### **Executive Committees of Ph.D. course Department of Electrical Engineering**

#### **Topic criterion of selective subjects of Qualifying Examination**

.....

Resolution of executive committee of Ph.D. course, 3/2016 on 19 August 2016, is set the criterion of Ph.D. Qualifying Examination academic year 2016 as follow,

#### **1. Resolution of examine subjects**

Every Ph.D. student who want to have Qualifying Examination must have three basic special knowledge examines related to student's research. These examine subjects must be graduate study level subjects of Department of Electrical Engineering.

#### **2. Resolution of setting the paper**

2.1 Advisers must not be the setter of paper, which students in advice will take.

2.2 Person in charge of setting the special basic paper related to students' researches: The executive committees of Ph.D. assign teacher who set paper and way to do examination. Teachers who set paper must teach or used to teach in the examination subjects.

2.3 Person in charge of subject, which has examination, must report detail of subject and examination topics to the department for doing an announcement.

If there are problems in this resolution, bring it in consideration of Executive Committees of Ph.D.

#### **3. Resolution of assessment of learning outcomes**

Assess in each subject and not less than 60% in every subjects.

#### **4. Resolution of period of examination**

Committee specify two periods of examination, first period is in midterm examination period of university and second period is in final examination period of university. Moreover, in some subjects which have examination only once, the examination must be in final examination period of university.

Each student can choose to have examination in some subjects or all of subjects in each period, and students who do not want result of midterm examination to add in can request for cancel the result of examination.

This Announcement is effective since academic year 1/2016
