

Announcement of Department of Electrical Engineering Procedures for Joining Classes in the Academic Year 2023

The Department of Electrical Engineering would like to inform about procedures for joining classes in the academic year 2023 (period August 2023–May 2024). Students can join any classes with the information from www.mycourseville.com. The procedures are as follows.

1. Student should use your student ID to register on the myCourseVille system.

2. Then for each class you can self-register with its fixed password: "CUEExxx" where xxx is the last three digits of the course ID. For example, "CUEE541" is the password for "2102541 IOT FUN".

There should be information on how you can join the first class of each course there. Some classes may use MS-Teams as well. Their passcodes for joining the teams should be announced there too.

Note: Student can see the list of lecture courses by CUEE faculties according to the attachment.

Please kindly be informed accordingly
Department of Electrical Engineering,
Faculty of Engineering
